

INTRODUCING THE LASH BOMB

LASH BOMB COURSE

Course cost: £ 250.00

Duration: 1 Day course (Lunch not supplied)

Pre-requisites: No previous experience required

Class Size: 4 to 6

Kit worth over £140.00 included

Lash bomb is an innovative method of giving the illusion the natural lashes are longer and have more volume using formulations and products made in the UK. The lashes are lifted from the root and set in place over this pad before having our 3-step system applied to the root of the lashes only. Creating a natural looking lift and giving the illusion of length and volume. Making the eyes appear more open without having to spend hours in the salon having semi-permanent lashes applied. Lash Bomb is a quicker and impressive alternative to semi-permanent eyelashes and will enhance the clients own natural lashes, with little or no maintenance for weeks.
